

**DR. CHRISTOS KONTOGIORGIS PRESENTED POSITIVE AT DETROP IN THESSALONIKI GREECE (MARCH, 2016).**

DETROP, the International Exhibition of Food & Beverage Industry took place at the Exhibition Centre HELEXPO in Thessaloniki (GREECE) during the past 3<sup>rd</sup> to 6<sup>th</sup> of March. DETROP is the major exhibition in Greece within the food & beverage sector and, every year, DETROP gathers a very high

number of exhibitors and visitors. In 2016, DETROP has been characterized by an extensive international participation from the European Union, Asia and Middle-East, Russia, USA, etc.

Further, a large number of parallel events were organized, including a meeting of the International Observatory of Oxidative Stress, designated: "The anti-oxidant power of the food on our plates". Dr. Christos Kontogiorgis was invited to give the lecture entitled: "Natural Antioxidants: Truth and myths regarding their role in Public Health". As part of his presentation, Dr. Kontogiorgis dedicated a few minutes to introduce the aims of the Cost Action POSITIVE using the slides prepared by the FG. All the attendants recognized the important mission of the Action and the innovative role that plays to impulse the research on the benefits of plant foods for health.
